THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicants amendment to the instant claims is sufficient to overcome all remaining rejections set forth in the Final Office action, mailed 03/30/2010.

The instant claims have been amended to now recite specific process steps directed to molecular orbital calculations for a target biological molecule, and are no longer directed to a naked parallel computing method of generic (unspecified) molecular orbitals. Support for the amendment limiting the orbital calculations to a target biological material is provided in the instant specification on pages 1 and 5. The instant claims have further been amended to specify a particular series of computational procedures carried out by a plurality of computers as well as specifying the particular communications of information between said plurality of computers. Therefore the rejection of claims set forth in said Final Office action under 35 USC 101 for lacking a specific and substantial utility as well as the associated rejection of claims under 35 USC 112, 1st has been withdrawn.

The remaining rejection of claim 19 under 35 USC 101 as being directed to non-statutory subject matter set forth in said Final Office action is also withdrawn in view of the cancellation of said claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
